Policy Management

Online Tracking Solution

Leverage our "On-Demand Training" platform to provide policy reviews and attestations for your employees.

Compliance risk management, is the management and adherence to the laws, regulations, standards, policies, and codes of conduct that apply to any organization.

VALIDATE
policy compliance

Templates Provided

Policy manager solution comes loaded with document templates and video training that cover the most common policies including:

- **Anti-Harassment Policy**
- **Social Media Usage Policy**
- **Data Privacy and Security Policy**

Centralized Tracking

All policy assignments and attestations are tracked in a centralized datastore with associated dates. Reporting dashboards are available for policy administrators.

Greatly reduces manual effort!

Available Inside Microsoft TEAMS

The training portal is available from a native application running in Teams. The open platform provides a tracking service for all your compliance policy assignments, reviews, and attestations.

Assign policy reviews and track attestations!

Configurable Compliance Policy Templates

Administrators can choose from a listing of existing templates, make necessary adjustments, or add brand new policy documents and questions.
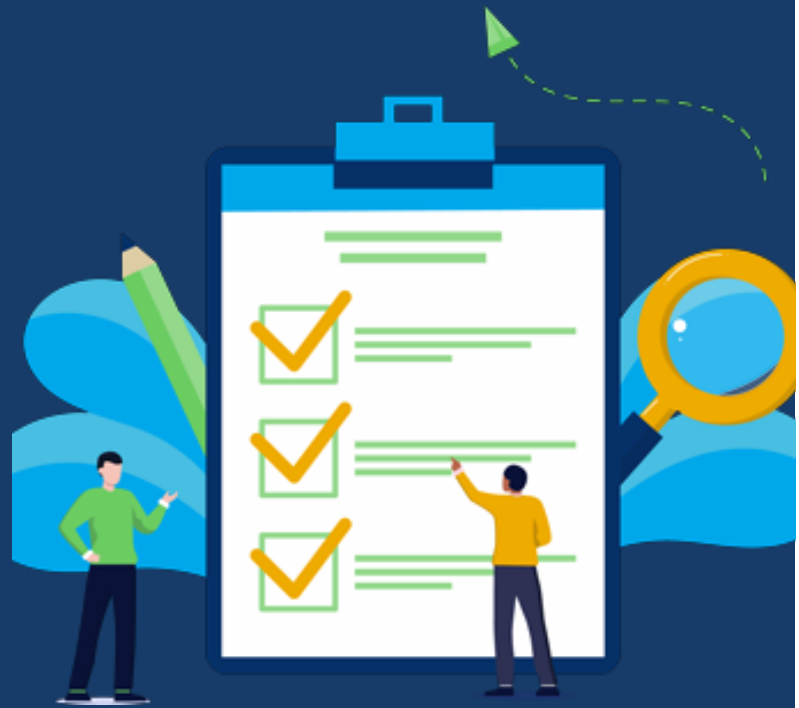

Assign Policy Reviews for User Groups

Customizable assignments for end users to review policies, pass exam questions, and attest to documented terms.

Track Completion Statistics for Attestations

Monitor policy review assignments for completion status and automatically notify users who still need to provide their attestation signatures.

Compliance Risk Management

Compliance is an ongoing initiative that responds to the changing regulatory environment, business growth, geographical reach, or newly enacted laws.
